

A highly specialized service for the transport, handling, and storage of artworks and valuable objects, in Italy and worldwide. **Expertise, security, and full respect for each individual piece.**

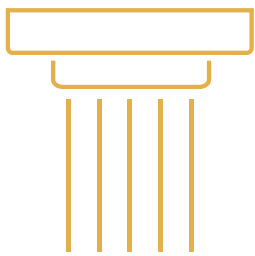

# OUR SOLUTIONS

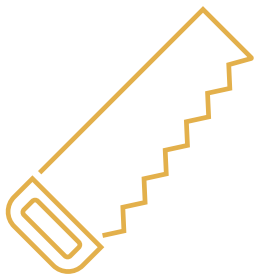

## HANDLING, TRANSPORT AND INSTALLATION

We manage national and international transports with climate-controlled vehicles equipped with hydraulic tail lifts and satellite tracking. Our expert staff handles every phase, **from accrochage to exhibition logistics**. We also provide architectural consulting and tailored display solutions, always respecting the uniqueness of each artwork.

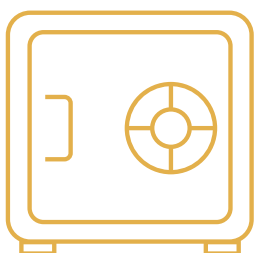

## SPECIFIC SUPPORT AND CUSTOMS SERVICES

We provide full support for every shipment: **ministerial documentation, customs procedures for non-EU countries, and tailored warranty coverage**. We ensure punctual and efficient management of every detail, even for complex exhibition setups, with a specialized team always at your side.

## IN-HOUSE CARPENTRY AND CUSTOM CRATING

We build tailor-made crates using high-quality materials to ensure maximum protection for your artworks. Our in-house carpentry team **works closely with technicians to meet all transport, exhibition, or storage needs**, delivering safe, sustainable solutions that respect the value and integrity of each piece.

## CLIMATE-CONTROLLED STORAGE AND VAULTS

We offer secure short- and long-term storage spaces equipped with **active temperature and humidity control, alarms, and video surveillance**. Additional services include overnight courier transfers, technician assistance, and rapid handling in facilities that meet museum-level standards.

# OUR COMPANY

**FERCAM**, a multinational logistics operator with family management, is present in 23 countries with its own branches and a dense network of correspondents worldwide. It operates in various transport and logistics sectors with specialized services.

**FERCAM Transport** handles road and rail freight, **FERCAM Air & Ocean** manages air and sea shipments for import and export, **FERCAM Logistics** focuses on third-party logistics projects, while **FERCAM Special Services** encompasses art logistics, trade fair solutions, as well as moving and relocation services.

# OUR BRANCHES

## OUR SUSTAINABILITY AGENDA: FERCAM'S COMMITMENT TO THE PLANET AND THE WELFARE OF ITS PEOPLE

FERCAM is undergoing a strategic transformation to reduce its environmental and social impact. Through the **Benefit Impact Assessment (BIA)**, the company analyzed governance, employees, community, environment, and customers, surpassing the average performance of similarly sized companies. Key strengths include social parity, inclusion, the use of local suppliers and resources, customer satisfaction, and health initiatives.

With the **REcrate project**, FERCAM has embraced a circular economy approach by turning transport crates into reusable and eco-friendly solutions, reducing waste and environmental impact. In collaboration with the **social enterprise Echo Labs**, this initiative also promotes social inclusion by offering job opportunities to people from disadvantaged backgrounds. An ethical and innovative approach that is redefining the future of art logistics packaging.
